Anti-Reflective Coatings (Pre Pair Prices)		
TKO or DES (TKO GOLD)	24.80	TKO - Factory scratch coat w/ Standard Hydro (1 yr warranty)
TKO or DES PLUS	35.40	PLUS - Factory scratch coat w/ Super Hydro & EdgeProtect Powder coat (1 yr warranty)
TKO or DES TUFF	38.60	TUFF - B4 Scratch coat with Standard Hydro (2 yr warranty)
TKO or DES ULTRA	49.40	Ultra - B4 Scratch coat with Super Hydro & EdgeProtect Powder coat (2 yr warranty)
UVARITY	49.40	ICE - Incredibly Clear Eyewear - Laramy-K's signature premium AR
ICE (CLEAR AR)	49.40	
B4 THERMAL HARD COAT	19.40	UVARITY - "AR with a purpose." Most of the newer lens materials block the "passage" of UV, but not the "reflected" UV and HEV from the backside of the lens. UVARITY addresses this. Not recommended on CR39. DES - Reflects 20% high energy blue light emitted from computers and hand held electronic devices. Available in all TKO levels. (comparable to Recharge/Prevencia) Our version has UVARITY on the back side.
Flash Mirrors (Blue, Silver, Gold)		
Flash Mirror TKO	33.80	
Flash Mirror Tuff	49.40	
Flash Mirror Ultra	61.00	
LKO Flash Mirrors include backside AR		

IMPORTANT NOTICE: Mirror Coatings are recommended for medium to darkly tinted lenses. The application of Mirror Coatings to clear, photochromic or lightly tinted lenses results in increased reflections towards the eye and may not be suitable for certain activities (e.g. night driving). Please advise your customer.
